

Complete automation for the disclosure creation and delivery process.

REGULATION Z SERVICING

"ECSI has the best level of services. They are timely, will bend over backwards to meet our needs, and never say no. We are treated like a special partner and that means a lot."

*Veronica Herschbach
Cleveland State
University*

ECSI's Regulation Z compliant servicing helps schools comply with Title X of the Higher Education Opportunity Act (HEOA). Regulation Z consists of an application, a self-certification form and a series of three disclosures provided to the borrowers of private education loans at specific intervals of the loan application and approval process. These disclosures are provided for every private, institutional, nursing or health professional loan disbursed on or after February 14, 2010.

ECSI's complete automation in the creation of the requirement disclosures during and after the application process and electronic delivery of these disclosures eliminates manual processes within your organization. Our solution creates a labor-free system, speeds the approval and disbursement process, and provides an efficient application process for your students.
